## **Lecture Entitled "Time Value" at AAU**

"Time Value" is an awareness lecture organized by the Deanship of Students Affairs AAU, based in Al Ain, and presented by Dr. Mahmoud Al-Kubaisi in the presence of members of the academic and administrative bodies and a number of students.

Throughout the lecture, Dr. Mahmoud Al-Kubaisi spoke of the importance of time in our lives and how not to waste it in the work that may bring us the evil and distance us from the way of goodness, for 'time' is precious.

Dr. Al-Kubaisi referred to the importance of an individual's organization of time, so that one can possibly arrange various business duties, whether spiritual or secular, without overriding each other. He, finally, urged the audience to take advantage of the leisure time that is missed by many people by exploiting it in what may appear useful to an individual.
