Lecture on "Competencies for Youth Mentoring Program" at AAU

The Deanship of Students Affairs at Al Ain University of Science and Technology based in Abu Dhabi, in cooperation with the Foundation for Youth Development, organized an introductory talk on "Competencies for Youth Mentoring Program" which was established by the Foundation

for Youth Development. Mrs Reem Al-Othman, the senior competencies project programmer, has described the search techniques for job opportunities in the private sector, how to register in the program and the roles of the job qualification criteria based on age groups.

The program is regarded as unitary of the Emirates Foundation for Youth Development, which allows participants the chance to get in touch with mentors willing to engage with young people and speak to them about their experiences of successful process to prompt them to work in private sectors.

The talk was attended by a number of pupils, university professors and the Assistant Dean of Students Affairs, who discussed with the lecturer on this matter in details for more clarifications upon their questions.
