Al Ain University has obtained ISO certification in (Environmental Management, Health & Safety Management, and Facility Management)

Al Ain University (AAU) has obtained the international ISO certification in Environmental Management, Health and Safety Management, and Facility Management, awarded by the British Standards Institute (BSI). This certification reflects the university's compliance with comprehensive quality standards and its commitment to environmental sustainability, health and safety, and efficient facility management, also its continuous improvement in administrative performance.

Prof. Ghaleb Al Refae (AAU President) stated that obtaining ISO certification is one of the university's most significant achievements.

It underscores the university's commitment to achieving the highest quality standards in all academic and administrative services provided by its various colleges and departments, ensuring quality and continuous performance development.

Dr. Nazih Khaddaj Mallat (VP, of Accreditation & Quality Assurance) emphasized the university's dedication to ensuring the comfort and well-being of the university community and enhancing its relationships with strategic partners. He affirmed the university's commitment to providing high-quality education within a diverse environment.

AAU Achieves International Institutional Accreditation by QAA (UK)

Al Ain University (AAU) has achieved a significant milestone in accreditation. For the very first time in AAU's history, AAU has secured institutional international accreditation from the "Quality Assurance Agency for Higher Education (QAA)"- United Kingdom. The International Quality Review (IQR) is a rigorous process that benchmarks global higher education institutions against international Quality Assurance standards, of the "Standards and Guidelines for Quality Assurance in the European Higher Education Area (ESG)".
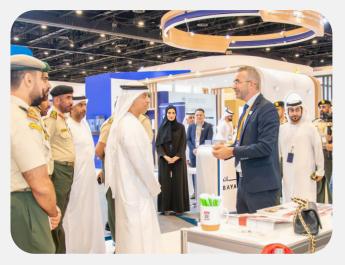

Al Ain University successfully completed its IQR and has been awarded global quality accreditation by QAA. Overall, the review team concluded that AAU meets all 10 internal quality assurance standards outlined in the ESG. Securing IQR accreditation from QAA allows AAU to highlight our quality standards on an international stage and facilitates dialogue with institutions worldwide.

Al Ain University participates in the National Service Career Fair 2024

Al Ain University participated in the 2024 National Service Recruits Employment Exhibition, held at the Dubai Exhibition Centre - Expo Dubai City. The aim was to bridge communication between the university and the national service recruits, informing them about the academic programs, activities, services, job opportunities available at the university, as well as scholarships and training courses offered to them.

This reflects the university's belief in the importance of contributing to securing the professional and educational future of the recruits after completing the requirements of the national service program.
The university's pavilion was visited by His Excellency Dr. Ahmed Belhoul Al Falasi, Minister of Education, and His Excellency Dr. Sultan bin Saeed Al Neyadi, Minister of State for Youth Affairs.

Civil engineering students achieve advanced positions in the ASCE competition

In a remarkable demonstration of innovation and engineering prowess, Civil Engineering students from Al Ain University (Abu Dhabi Campus) achieved notable success at The Annual Low Cement Concrete Competition hosted by the American Society of Civil Engineers (ASCE) student chapter at the American University of Sharjah (AUS).

This competition challenges participants to design and test sustainable low cement concrete mixes, emphasizing environmental responsibility and structural integrity. This year, AAU's Civil Engineering Program made its debut appearance, adding a fresh dynamic to the competition's landscape. Despite being newcomers, two teams from AAU secured impressive victories, earning second and third places with a remarkably close margin.

Dr. Omar Najm, a Civil Engineering faculty member, supervised the winning teams, offering guidance and support throughout the competition. The second-place team from AAU's Al Ain Campus included Mohammad Al Jaberi, Alaa Saeed, and Amjad Kamel. The third-place team from AAU's Abu Dhabi Campus.

Al Ain University participated in AETEX 2024

Al Ain University participated in the Ajman International Education and Training Exhibition «AETEX 2024,» organized by the Ajman Chamber of Commerce and Industry under the patronage of His Highness Sheikh Humaid bin Rashid Al Nuaimi, Member of the Supreme Council and Ruler of Ajman. The exhibition was inaugurated by Sheikh Rashid bin Humaid Al Nuaimi and featured a group of leading universities and educational institutions in the country.

During his visit to the university›s booth, His Excellency was briefed on the academic programs offered by the university. The booth representatives showcased the university›s most prominent activities and its participation in various educational exhibitions, as well as its active role in community service.

Through its participation in this exhibition, the university aims to introduce school students and visitors to the diverse academic programs it offers across various colleges, including bachelor›s, master›s, and the Professional Postgraduate Diploma in Teaching, all licensed by the Ministry of Education in the UAE. Additionally, the booth highlighted all the unique features of Al Ain University that meet student needs.
