ALUMNI OFFICE

AAU Alumni Office to Organize “Career Week “ Next November

The Alumni Office at Al Ain University (AAU) is organizing the “Career Week “ from November 9 to 12, aiming to prepare graduating students and alumni for the labor market and enhance their employment prospects.

The four-day comprehensive event features a dynamic lineup of activities designed to empower young talent:

- Days 1 & 2 (November 9–10): Dedicated to a series of interactive training courses and career development workshops, focusing on equipping participants with essential skills to thrive in the modern job market.
- Days 3 & 4 (November 11–12): Featuring the launch of the Career Fair, with broad participation from leading organizations across both government and private sectors.

UNIVERSITY NEWS

Al Ain University Students Win First Place at INSPIRE ’26 Hackathon Among More Than 100 Teams

Al Ain University has achieved a new milestone in innovation and emerging technologies after a team of students from the College of Engineering – Abu Dhabi Campus secured First Place at the INSPIRE ’26: Engineering the Invisible – Arduino UNO Q Hackathon, held on 5 September 2026 at the American University of Sharjah, with the participation of more than 100 student teams and projects from universities across the UAE.

The winning team presented AeroHalo – AI-Powered Predictive Airside Safety System under the Smart Aviation Systems track. The innovative solution utilizes artificial intelligence and computer vision technologies to enhance safety in aircraft operational areas by detecting ground-support vehicles, personnel, and foreign object debris (FOD), while analyzing their movement, direction, distance, and closing speed to predict potential hazards before accidents occur. AeroHalo aims to move beyond conventional proximity-warning systems by introducing a proactive safety approach capable of assessing real-time risk levels and issuing escalating alerts. The system is designed to support safer airside operations and contribute to reducing the likelihood of accidents in aviation environments.
