A Workshop Entitled "Oracle Database" in Al Ain University

Dr. Mohammed Sheriff Dawood from the College of Business Administration in Al Ain University of Science and Technology in Abu Dhabi conducted a workshop on 'Oracle Database'. The workshop was attended by a number of students majoring in the Management Information Systems.

The aim of the workshop was to introduce the students to the main Oracle product which merges the programs with the databases to be used in many web services. Likewise, software engineers can add their own programs on the databases for a better panel control and program yields.

The company develops software for database as Oracle Designer, Developer Oracle Developer and the software tools to help write programs for a more honest and faster Oracle database.
