AAU Students Visit the Abu Dhabi Statistics Center

The students of the College of Business Administration at Al Ain University of Science and Technology in Abu Dhabi visited the Abu Dhabi Statistics Center under the supervision of Dr. Noha Hamadeh, a faculty member of the College of Business Administration. The purpose of the visit was as part of students' interaction with the community on the one hand and achieving one of the outputs of the statistical material on the other hand.

Dr. Noah confirmed that the visit achieved their objectives of identifying achievements of the successive center, which serves the decision makers at all levels. For, accurate statistics documented in Abu Dhabi and the cooperation of all local institutions with statistic Abu Dhabi serve the vision of Abu Dhabi's future.

The center prepared a valuable program to educate students about the use of statistics in practice and challenges faced by the center to ensure a careful statistical number of the user. Also, there was an exchange of discussion between the lecturers and the students, and the center's accomplishments that are displayed in GITEX consist of developing intelligent programs and open data portals to ensure easy access to the required data.

In the end, the center distributed souvenirs to the students.
