## Closing a futsal Football League in the Second Round at AAU

The aura of competition and challenge, the Science School won the cup Championship in Al Ain University of Science and Technology for the 2014 football. It was formed by Al Ain University of Science and Technology from its vision to produce a feeling of competition among high schools, which encourages innovation in all areas of science and sports.

The tournament was organized by the group system which is only winning teams qualify, with twenty-six secondary school tournament, and each team has five participants from the schoolhouse.

The teams have made the maximum effort to qualify for the finals and the restrictions on the cup. The challenge was evident in the optics of the participants during the matches in the quarterfinals and beyond, where it qualified for the final quarter the six strongest teams from schools, and punctuated the competitive atmosphere of enthusiasm and competition for the trophy, in the presence of a big number of fans of participating teams.

After strong competition in the finals tournament, culminating in the special Science School, which won the foremost spot, followed by Tawam Model School in second spot, and eventually into the Gulf Private School in third space.

The AAU President, Prof. Dr. Ghaleb El Refae, honored the winners of the spokespeople of the intended schools.

On this occasion, Prof. Ghaleb El Refae stressed the importance of organizing such sport activities for students, which stimulate to develop students' talents and grow their rational and physical abilities as well as producing a spirit of fair competition among the scholars.

The President honored the student, Saif Abu Snober from the Tawam Model School, as the best goalkeeper and the student, Hamza Fayez from Science School, as the best player. Finally, the Emirates Private School got the perfect private school team cup.
