Khalifa Fund Visits AAU

The Deanship of Students Affairs, based in Al Ain, received Al Khalifa Fund for enterprise growth and young Arab leaders. The purpose of this sojourn was to prepare a demonstration to students near the importance of taking part in the "Start-up Weekend" organized under the slogan "Unleash yourself and be the most successful entrepreneur".

The event extends over three days at 54 hours of work to promote students to creativity and innovation in the area of information engineering and communication techniques so that the participants will effectively expose their ideas around new technologies and innovative projects to a group of governors and put them into practice to supply technological and fabric backing to these tasks.
