Workshop on “Types of Intelligence” at the Al Ain University

The Continuing Education Centre of Al Ain University of Science and Technology, in cooperation with the General Requirements Department and the English Language Centre in Abu Dhabi, organized a workshop entitled "Types of Intelligence" (Multiple Intelligence). It was presented by Dr. Wafa Kharashkeh, a faculty member in the General Requirements Department, in the presence of members of the academic and administrative bodies and a number of university students.

The workshop addressed the eight intelligences of the world think "Gardner" and the activities of the brain, the left and right. It also addressed the relationship of intelligence to the individual differences of students, which was of good use for the faculty members on how to deal with students with different degrees of intelligence and academic degrees.
