AAU Students Visit 'Kizad'

The Deanship of Students Affairs at Al Ain University of Science and Technology, Abu Dhabi-based, organized a student visit to 'kizad', where Mr Tariq Al-Sweidi, Business Development Executive, gave the students an explanation about the advantages of 'Kizad' as part of the Abu Dhabi economic vision 2030, representing the essence of the program industry in diversification within the Abu Dhabi economic vision, with a clearly defined plan of action to achieve the sustainable growth of economy and the prosperity of its people. Thanks to the vast area of land for industrial projects and world-class infrastructure, he explained that the Khalifa Port is the first port in the peninsula which features a depth channel that allows crossing of the largest container ships in the world.

Students toured the center where they would learn more about it in the light of the economic vision. In the end, Mr. Tariq answered many questions and inquiries regarding the port and economy.
