Al Ain University Participates in a Workshop about 'Statistics'

Al Ain University of Science and Technology, based in Al Ain, participated in a workshop organized by Statistics Department, which was represented by the College of Business Administration and the College of Engineering and IT. Many students and faculty members from both colleges attended the workshop under the supervision of Dr Maha Rahruh and Dr Faisal Al Shammari.

The aim of the workshop is to present the statistical relevance in society, how to increase the statistical awareness among community members and the importance of regular data collection and statistical indicators and benchmarks for the service of development and increased production that can be made available to all institutions in society by the Statistics Department.
