Student visit to the Behavioral Scientific Platform

Organized by the Deanship of Students Affairs at Al Ain University of Science and Technology, based in Abu Dhabi, in cooperation with students from the Psychology course, under the supervision of Mrs Racha Sadeeq, a student visit to the BSP at the Sheikh Khalifa Medical City. Throughout the visit, the students were introduced to different sections and services to patients. They also visited the psychiatric, addiction and forensic departments as well as a new section for psychiatric and pediatric cases transferred to it via schools.

The addiction department is divided into two compulsory sects: compulsory addiction sect by police and the other is optional.

Dr. Medhat Al Sabah gave a special lecture in the behavioral sciences, followed by questions and discussion raised by students.
