## **The College of Pharmacy at Al Ain University Honors Strategic Partners in the Training Program for College Students**

During a ceremony held at the Sheikh Khalifa Medical City in Abu Dhabi, the College of Pharmacy at Al Ain University of Science and Technology honored pharmacists and the pharmacy departments to mark the completion of course requirements for practical training, and where Dr. Heba El-Khouly provided a detailed explanation of the training of college students.

In summation, all pharmacists supervisors who trained the pharmacy students in the years were honored, including the management of the hospital's pharmacy with its effective role in supplying the best clinical training programs for college students, which would entitle them to be qualified pharmacists as they are taken in enhancing the level of health services in the state.

The pharmacists, staff and management of NeoPharma Pharmaceutical Industries in Abu Dhabi were also appraised by the College of Pharmacy for their role in support of the college and for providing successful training programs in the pharmaceutical industry to help college

students learn various aspects of pharmaceutical and medical products.

Finally, during the first semester of the academic year 2014/ 2015, the College of Pharmacy honored the pharmacists, the pharmacy's administration and Al Ain Hospital's administration on their permanent cooperation with the college and their active participation in the clinical training of a large number of college students.

On this occasion, Dr. Khairi Mustafa, the Dean of the College of Pharmacy declared that the clinical training programs which last for a full semester, were scrutinized and developed by specialized committees of health and the College of Pharmacy to ensure successful training in clinical hospitals for the college students to do their part in raising the level of health services for the homeland and the citizen. The College of Pharmacy at the Al Ain University of Science and Technology boasts upon the supplying of this training in the state's top hospitals.

Dr Khairi warmly thanked the pharmacy industry and the pharmacy management at the Sheikh Khalifa Medical City as well as thanking all pharmacists and hospital administrators for their effort on training college students. The ceremony was rounded up with granting certificates of recognition and trophies to the ones honored.
