A Workshop at AAU about “Cyber Quest”

In collaboration with the National Emergency Crisis and Disasters Management Authority, the College of Engineering at Al Ain University of Science and Technology, Abu Dhabi Campus, organized a workshop about the “Cyber Quest” competition which aims to refine students' skills and enhance their awareness in cyber security.

A video about the contest was presented by Mrs. Aisha Al Zarei which includes four stages: the introduction, the training round, the preparatory stage and the final competition.

The competition in its fourth edition characterized by featuring a special edition for the university students for the first time, in collaboration with the Ministry of Education and the Ministry of Culture and Development Knowledge.

At the end of the workshop, Dr. Faten Kharbat, Deputy Dean of the College of Engineering

presented an appreciation certification for the Authority team in recognition to their efforts.
