AAU students are ready for Science Festival

In collaboration with the Department of Education and Knowledge, Al Ain University of Science and Technology, in its both campuses, Abu Dhabi and Al Ain, completed successfully the training courses for its students who are participating as scientific guides in the Abu Dhabi Science Festival, which will be held from 31 Jan to 7 Feb 2019 at Cornish Abu Dhabi and Al Jahili Park in Al Ain

The Scientific guidance includes a set of scientific experiments in science and technology fields to inspire young minds to look at the world through inquisitive eyes and help their learning development, and it also aims to promote the student's communication skills and self-confidence.

Al Ain University is always keen to participate in the Abu Dhabi Science Festival, which gives the students the opportunity to acquire new skills that will be beneficial to their future lives.
