Workshop on developing the efficiency of researchers by using “Mendeley”

The Khalifa library at Al Ain University (AAU) organized a virtual workshop, “The efficiency of a global researcher using Mendeley”, to educate AAU faculty and students about the importance of Mendeley in scientific research.

The workshop was delivered by Dr. Yasmin Abdelraouf, the consultant from Elsevier, along with the presence of faculty members, students, and administrative staff, and moderated by Dr. Abdoulaye Kaba, Director of the Library.

As part of her presentation, Dr. Yasmin demonstrated to the participants how to effectively make use of Mendeley desktop, the Mendeley website, and Mendeley Plugin in scientific research. Using a live demonstration, she demonstrated how researchers can collaborate with other researchers through Mendeley.
