An event to raise awareness of "Ifhas" Program

The Deanship of Student Affairs (Abu Dhabi Campus) organized an event to raise awareness about "Ifhas" program, which was launched by the Abu Dhabi Center for Public Health, in cooperation with Mediclinic Hospital - Airport Street.

"Ifhas" is one of the strategic programs of the Abu Dhabi government, and it is the outcome of the leadership's efforts to maintain the health and well-being of community members, and provide the best practices related to preventive health.

The "Ifhas" program aims at dealing with chronic diseases - a global and local challenge, by offering a number of internationally recognized and scientifically proven tests to reduce mortality and increase the quality of life through an effective screening process.
