Pharmacy Students Visit "National Dairy Hayatna" Factory

The College of Pharmacy at Al Ain University (Al Ain Campus) arranged a field trip to the "National Dairy Hayatna" Dairy factory for both Pharmacy faculty members and students.

This excursion presented a valuable opportunity for students to gain firsthand experience of the manufacturing procedures involved in various dairy products at a factory renowned for its diverse dairy item production.

The guided tour of the factory provided a comprehensive understanding of the production process, enabling students to witness the application of various subjective and objective methodologies in evaluating dairy products.

The visit to the "National Dairy Hayatna" Factory not only expanded the students' knowledge but also instilled a deeper understanding of the intricacies of dairy production, in line with the College's dedication to experiential learning and academic excellence.
