Eid Carnival: Spreads Joy and Strengthening Community Bonds

The Deanship of Student Affairs and the National Identity Club at the Al Ain campus, in collaboration with 4U Medical Center, organized the "Eid Carnival" event to celebrate Eid Al-Adha—the event aimed to spread joy and enhance the festive spirit through meaningful engagement with the local community.

The carnival featured a variety of entertaining activities, the distribution of holiday gifts, and festive greetings. University students and community members participated in cheerful segments that added a special touch to the celebration, fostering a warm and joyful atmosphere.

The significance of such events lies in their social and humanitarian impact, as they help strengthen the connection between the university and the local community. They also promote a sense of belonging and collective happiness, provide a positive environment that supports students' mental well-being, and encourage active participation in cultural and community-based initiatives.
