A Fun Trip to Yas Waterworld

The Deanship of Student Affairs – Al Ain Campus organized a recreational trip for female students to Yas Waterworld in Abu Dhabi. The trip was part of the Deanship's commitment to providing meaningful entertaining activities that enhance university life and offer students the opportunity to enjoy their time in an atmosphere filled with fun and positive interaction.

The trip aimed to strengthen social bonds among female students, develop a spirit of cooperation and communication, while providing a recreational space that helps them maintain a balance between academic life and entertaining activities.

This initiative comes as part of the Deanship of Student Affairs' efforts to encourage female students' participation in student activities and events and enhance the quality of university life, contributing to a positive and motivating university environment.
