English Language Center > Community Engagement

## Community Engagement

In line with the AAU's mission and commitment to Community service, the English Language Center extends its services to the wider community. The target audience in this respect includes school students, English language teachers, and the public in general.

The ELC **Schools' Outreach** program, to be implemented in the near future, offers school students the following:

- Orientation on the language requirements
- Orientation on the various standardized tests and the differences among them
- Workshops on language-related study skills
- Workshops on language-related test taking skills

The program also offers help and advice to English language teachers.
