

Human Resources Unit > Community Engagement

Community Engagement

In support of the AAU's long-term, extensive plan of community service, the Human Resources Unit carries out its social responsibility in the best manner possible. The Human Resources Unit welcomes interns and provides them with top-training to aid them in their future careers. Moreover, the Human Resources Unit is supportive of other HR and personnel departments at various academic institutions and small-scale companies who require assistance or consultancy. The HR Unit is also ready to arrange for awareness talks on the MOL laws and employee rights.
